## RING POWER'S STATE-OF-THE-ART PAINT FINISHING FACILITIES

Help restore and protect the value of your equipment with a high-quality factory finish. Your equipment, vehicle, trailer, boat, missile carrier or nearly any other item will be meticulously pressure washed, sandblasted, painted and returned to you quickly, looking like the day you bought it.

## THE PAINTING PROCESS

- Pressure Washing
- Sandblasting
- Painting
- Applying New Decals/Graphics

## THE RING POWER ADVANTAGE

- Stand-alone paint shop equipped with heated paint booths and sandblasting booths
- Capable of refinishing all types of products (not just heavy equipment)
- Staurolite sandblast process removes old paint and etches for superior paint adhesion

- Expert masking and taping protects machine parts not meant to be painted
- Paint Booths accommodating up to 60' long and 20' wide
- Multi shift/quick turnaround
- Custom Corrosion Protection Packages available
- Body work and metal fabrication available on-site

With our unlimited color options and superior color match capabilities, Ring Power's full-service paint facilities will help you choose the best paint and protection options for your budget and needs. Restore and protect the value of your equipment with a reasonably priced, high-quality factory finish.
